CALLING ATTENTION TO A MATTERS OF URGENT PUBLIC IMPORTANCE

Re : Mosquito menace and drinking water scarcity in Tumkur Town.

Sri B. P. GANGADHAR (Tumkur).—I call the attention of the Minister of State for Municipal Administration to the Mosquito menace and drinking water scarcity in Tumkur Town.

Sri B.M. PATIL, (Minister of State for Municipal Administration).— It is true that the mosquito menace exists in varying degrees in the several extensions of Tumkur town; it may be stated here that it is a general feature of all towns now-a-days in the State, especially, during the hot season. However, the Municipal authorities have been instructed to do the needful to spray the necessary pesticides, to clean up all slum areas regularly, etc. Unless underground drainage scheme is introduced and implemented in the Town Municipal area, the mosquito menace cannot be eliminated completely.

The Town Municipal Council has called for tenders to sink up a borewell behind the Executive Engineer's Office and after the receipt of tenders, the sinking of borewell will be expedited. Regarding the scarcity of drinking water, efforts are being made to tra e the additional sources of water in the areas nearby, to augment the existing water resources. The Public Health and Engineering Departments have already been addressed to take up the question. For the present, it is reported that there is no sudden development of any acute shortage of drinking water in the Tumkur Town due to timely rains during this year.
